HABILITIES

- Teamwork
- Independent learning (online degree)
- Adaptability to virtual environments
- Management and organization
- Working under pressure
- Problem solving
- Autonomy

INFORMATION

-  (B1)

MY PROFILE

Computer Engineering professional with experience in process automation and data processing using Python. I recently applied my skills to developing efficient solutions for data management and analysis, working with technologies such as Docker, Spring Boot, and SQL Server. I have participated in projects focused on workflow optimization, implementing scripts for task automation, and improving efficiency in information processing. I also have solid knowledge of programming languages such as Python, Java, C, and JavaScript, and a quick ability to adapt to new tools and methodologies.

ACADEMIC EXPERIENCE

(2019 – 2025) / BACHELOR'S DEGREE IN COMPUTER ENGINEERING

UNIVERSITAT OBERTA DE CATALUNYA (UOC)

Development and Maintenance of Software, Web, and Mobile Applications.

(2009 – 2011) /F.P. II IN NAVAL MECHANICS

I.F.P.M.P. DE SAN ANDRÉS

Supervision and Control of Naval Machinery

Development and Maintenance of Software, Web, and Mobile Applications

EXPERIENCE

PROGRAMMER – ALFRAN

(May 2025 – June 2025)

Automation with Python, JS, and CF7 in WordPress.
